TIME TO GO: ALICE MAREE

After a period of six years it is time for me to say goodbye as editor of the CRIMSA NEWSLETTER and welcome Prof Anthony Minnaar who will take over the responsibility. I left the services of the Department of Criminology, at the University of South Africa (UNISA) for an appointment in the private sector. I am appointed at the South African Banking Risk Intelligence Centre (SABRIC) situated in Midrand, South Africa, responsible for research and strategy development. It is a wonderful opportunity to apply theoretical knowledge in practice. It further emphasizes the diversity of criminology as an applied science.

I want to thank all contributors to the Newsletter in my term of office and would like to invite you all to keep in touch with me regarding future developments in the field of criminology, practical appliances, conferences and crime combating strategies. I will still remain a member of CRIMSA, as it is the leading association for Criminologists in Southern Africa.

In conclusion, I want to encourage all CRIMSA members to recruit new members and to forward contributions to the Newsletter, as it is our mouthpiece to inform

and debate critical issues, community involvement, conference outcomes and research projects.

FROM THE NEW EDITORS

With the resignation of Alice Maree from UNISA and her move to the corporate private sector a change has occurred in the editorship of the CRIMSA newsletter. The CRIMSA EXCO appointed Prof. Anthony Minnaar and Ms Harriet Klopper as the new editors. The editors accordingly make a call on all members as well as students to send in news to them for insertion (conference reports, information on attendance at seminars, workshops, new research projects, masters/doctoral research registered, publications, conference presentations etc.)

All correspondence related to the newsletter should be addressed to:

ESTABLISHING A PROFESSIONAL BOARD FOR CRIMINOLOGY

The Criminology and Victimology Society of Southern Africa (CRIMSA), have been exploring the possibility of establishing a professional board for Criminologists for some time. The recent change of the Bachelor of Arts Criminology Qualification developed by the SGB (Standard Generating Body) for Criminology and Criminal Justice, to a career focussed Bachelor of Criminology (a four year degree), set the stage for exploring this matter further. Representatives of CRIMSA, Proff Beaty Naude, Van der Hoven and Davis made an appointment with Berto Lombaard of SACSSP (the South African Council for Social Service Professions) to discuss the possibility of registering a professional board for Criminologists. During the discussion it became clear that there exists the possibility for affiliation with the Professional Board for Probation Officers. Further discussions with Mr Coenie du Toit, who represents the profession Probation Officers, indicated that although the Probation Officers Board is not constituted yet and no decisions can be made until this council has been established, the possibility of a joint board, is not excluded. Agreement was reached that as soon as the Professional Board for Probation Officers is established, further consultation with CRIMSA members will follow.

A copy of the application for the establishment of the Professional Board for Probation Officers at SACSSP was provided to the representatives from CRIMSA and it was interesting to note that their proposed qualification includes various aspects that are directly related to the field of Criminology and the B Criminology Qualification.

Although the process of establishing a professional board for Criminologists (or affiliating with another professional board such as the Board for Probation Officers) can take up to two years, CRIMSA is in consultation with various experts working in the field of Criminology, post graduate students, other professional boards and councils as well as institutions such as the Restorative Justice Centre to obtain their support for the establishment of a professional board for Criminologists.

2ND STUDENT AND PRACTITIONER COURSE IN VICTIMOLOGY, VICTIM ASSISTANCE AND CRIMINAL JUSTICE

The second Student and Practitioner Course in Victimology, Victim Assistance and Criminal Justice, organised by the World Society of Victimology, was presented at the Main campus of the University of Cape Town from 5 to 9 July 2004.

Although the small number of individuals attending the course was disappointing, the weeklong course was characterised by presentations of a very high quality and all the presentations elicited lively discussions. Various experts in the field of Victimology as well as individuals dealing with victims on a daily basis, participated in the course. These include Juan Nel (Centre for Applied Psychology, UNISA), Barbara Holtmann (CSIR Crime Prevention Centre), Allison Wainwright (Department of Social Services), Venessa Padayachee (NICRO), Cindy Celliers (NICRO: Women Support Centre), Pearl Dastile (Department of Criminal Justice, University of Venda), Divya Singh (School of Justice, UNISA), Gerhard Swanepoel (CROWA, South Africa), Hugo van der Merwe (CSVR), Lillian Artz (University of Cape Town, South Africa), Karen Booyens (Department of Criminology, UP), John Cartwright (University of the Western Cape) and Aubrey Theron (Department of Criminology, UP). Three international guests, namely Stephan Parmentier, Kris Vanspauwen and Elmar Weitekamp (all from the Law and Society Institute, Leuven, Belgium) also joined the group.

Various themes, such as victim empowerment in South Africa, victim support versus trauma counselling, working with perpetrators of domestic violence to prevent domestic violence in South Africa as well as sentencing practices and their impact on deterrence in cases of intimate violence, were discussed. Practical information regarding Ikhaya Lethemba, a one-stop centre for victims of crime in South Africa, a NICRO community victim support programme to stop the domestic violence perpetrator's use of violence as well as results from a three year study regarding the Monitoring the Domestic Violence Act (116 of 1998), were also exchanged, while specific crime phenomena such as sexual harassment and rape of female students on campus, male rape in prison as well as ecological victimisation as an often forgotten form of victimisation, also received attention.

Contributions from the international presenters included the World Report on Violence and Health, Victims of Political Crimes and Transitional Justice. Closely related to these topics, criminology lessons for dealing with the past as well as restorative justice in the context of political violence in South Africa were also addressed. This section was concluded by a practical and visual example of the functioning of the Community Peace Programme in Zwelethamba (Worcester), where residents are mobilised to deal with and resolve disputes and conflicts that affect people's freedom to live, work and play in peace.

On the final day of the course the power of effective counselling as a way of surviving crime was highlighted by Debbi Rozowsky (a bomb survivor), who shared her personal experiences with the course attendees. This was followed by a practical workshop on the use and value of art therapy principles. As part of the final session of the week, course participants were asked to share their experiences regarding the course as well as their feelings about it with other attendees.

The highlight of the week was the site visit to Pollsmoor Prison on Wednesday, 7 July 2004. Organised by the Judicial Inspectorate of Prisons, course participants were given the opportunity to see/experience and appreciate the unique problem of overcrowding in South African prisons. This field trip allowed course participants to network and share some of their experiences when dealing with victims of crime with each other.
